

JUVENILE JUSTICE INTERVENTION SERVICES

ABOUT US:

Stanford Sierra Youth and Families, in partnership with the Sacramento County Probation Department, delivers the Juvenile Justice Intervention Services (JJIS) program. The program assesses each youth's individual treatment needs and matches the youth to the appropriate service intervention(s) to include: counseling, skill building, peer and family support services; and case management and linkage to community-based services.

Services are primarily community-based provided in the home, school, and/or community, based on the individual needs of each youth and their family. Consistent with best practices, probation officers work in collaboration with SSYAF's JJIS team, youth, families, advocates, educators, and natural supports to ensure the youth and family's needs are being met.
