

Post-Adoption Orientation

Our Post-Adoption Services Orientation is designed to equip families with essential information about the adoption process, potential challenges, and available resources.

Sessions will provide comprehensive education, including specialized training on parenting techniques tailored to the unique needs of adopted children, such as trauma-informed care and attachment-building strategies.

All families considering adoption are invited, and the program seeks to ensure every caregiver has the necessary resources and support to navigate the adoption process with confidence.

Monthly Sessions

- First Monday of the Month
- 2:00 - 3:00 PM
