Overarching Goal:
The Wraparound Program combines a family-centered, strengths-based, needs-driven, team-driven approach with individualized intervention and wellness-focused therapy. Standardized wraparound principles and methods are used to comprehensively serve a families’ needs. The goal of the program is to achieve stable permanency for the youth, and a positive environment for all family members.

Assessment & Plan Development
- Accurate diagnosing and/or identification of needs
- Stabilization of immediate safety risks and development of plans for future safety risks.
- Decrease family stress and barriers that prevent engagement.
- Consistent engagement in activities and increased motivation
- Stabilize or find placements & develop permanency plan

Short Term

Medium Term
- Achieve treatment goals
- Reduce length and frequency of stays at group homes, psychiatric hospitalizations, or detention facilities
- Safely reintegrate into a family-based environment
- Help family/youth to become self-sufficient and utilize natural supports
- Connect youth with family and friends to nurture long-term relationships and support systems
- Connect family to community resources

Long Term
- Overall improvement in youth’s behavior and functioning.
- Reside in a family based setting (Bio/Adoptive, Kinship, Guardianship, or Foster Care)
- Develop independent skills and permanent social connections
- Families utilize community resources over formal resources (including CPS and Probation)

10 Core Principles
- Case Mgmt. Linkages
- Child & Family Team Meetings
- Skill Building
- Youth and Family Advocacy
- Crisis Intervention
- Caregivers & Natural Supports
- Achieve treatment goals
